
The Last Of Us Pc Keygen Torrent Fixed

The Last Of Us is an action-adventure survival-horror video game developed by Naughty Dog and published by Sony Computer Entertainment for the PlayStation 3. It was released in North America in June 2013 and in Europe in June 2014, with a sequel released in June 2015. It was also released on PlayStation 4 in August 2016, and for PC in August 2017. It was re-released on DVD in the United States and Canada in October 2012, January 2013 and June 2014. The plot of the game is set three years after a lethal pandemic has killed over half of the Earth's population. The civilization, once known as "Eden", is now nearly extinguished, and small pockets of human survivors, called "Outposts", exist in scattered locations. Joel is a man of action, he is a former soldier turned scavenger, trying to gather various items needed to fend for himself and his partner Ellie. The former soldier must guide Ellie through the harsh post-apocalyptic world. While they find help from various people, from smugglers to ex-cons, Joel is haunted by his dark past. Both must learn to survive in this new society, while fighting human-zombie fusion, bandits, and other threats. The game received critical acclaim upon release, with reviewers praising its atmospheric and emotional story, and the character development of the main characters, most of whom were voiced by Troy Baker and Ashley Johnson.
